

PROJECT QUANT — JOURNAL MEMORY

J-Series | Trading Rules, Trade Log, Infrastructure

Arpit Goel + Claude | April-May 2026

CORE MISSION & TRADING OBJECTIVE

Personal trading goal: Build a validated signal system using Rs.20K dabba as a live QA sandbox. Once signals prove reliable, deploy Rs.2.5 Crore in real capital.

The Journal tracks every personal cash trade, every rule compliance, every infrastructure decision. Discipline over impulse. System over emotion.

JOURNAL FORMAT — NON-NEGOTIABLE

Rule	Detail
Scope	Personal cash trades ONLY — no futures, no pair log, no V4 client trades
Format	Text only — no PDF output from journal queries
Trade ledger	Table format — latest trade on top always
Columns	#, Stock, Type, Date, Qty, Entry, Exit, P&L, Rules%, Verdict
Open trades	Show — in Exit, P&L, Rules%, Verdict columns
Running P&L	Shown below table — closed trades only

CAPITAL STRUCTURE

Capital	Amount	Purpose
Salary	Rs.2.5L/month	Runway — funds life and startup for 12 months
FD	Rs.10 Lakhs	Safety net — untouchable
Dabba	Rs.20K	Signal QA sandbox — test before scaling
Target deployment	Rs.2.5 Crore	Live capital once signals validated
V4 model capital	Rs.60 Lakhs	Client money — not personal, not in journal

THE 9 TRADING RULES

#	Rule	Detail
1	Entry after 3 PM only	Mid-day only if strong base confirmed
2	Buy side — uptrend above DMA200	Reversal in uptrend after consolidation. 5M + 1D clean structure
3	No news/event trading	Blacklist: RBI days, budget, earnings of large caps
4	Share charts before entry	Validate with Claude before entering
5	No position sizing jump after win	After good week — reduce size slightly
6	Check event calendar before entry	Geopolitical, earnings, macro events
7	Minimum R:R 1:1 (target 1:2)	If setup does not meet it — no trade
8	Capital per trade Rs.50K-Rs.1L	Within personal limits
9	Hold 1-3 days BTST only	No scalping. No long positional.

3 Questions Before Every Trade

- Is this from my Quant universe? If No = No trade
- Is R:R acceptable and structure clean on 1D + 5M? If No = No trade
- Is my priority work done today? If No = No trade

TRADE LEDGER — CUMULATIVE | Latest on Top

#	Stock	Type	Date	Qty	Entry	Exit	P&L	Rules%	Verdict
#006	NESTLEIND	Short	15-May-26	75	1,441	—	—	—	Open
#005	SUNPHARMA	Long	15-May-26	25	1,882	—	—	—	Open
#004	Nifty	Long	—	—	23,950	23,850	-Rs.1,000	33%	Loss
#003	Phoenix Mills	Long BTST	—	—	1,830	1,810	-Rs.1,800	78%	Loss
#002	Apollo Hospitals	Long BTST	—	—	7,844	8,050	+Rs.5,150	89%	Win
#001	Nifty	Short	—	—	23,970	23,970	Rs.0	78%	Breakeven

Running P&L; (closed trades only): -Rs.650

KEY INSIGHT FROM DATA

Rule compliance directly correlates with outcome. 89% rules = profit. 33% rules = loss. The data proves the system works when followed.

EVENT FLAGS — ACTIVE

Stock	Event	Date	Action Required
SUNPHARMA (#005)	Q4 FY26 results + earnings call 6:30 PM IST	22-May-2026	Exit before May 22. Do NOT hold into results.
NESTLEIND (#006)	Results already declared. AGM July 3. Dividend July 10.	Monday 10	Hold freely. Pure technical short.

TRADING TECH INFRASTRUCTURE — UPDATED

Component	Detail	Status
Yahoo Quote	yahoo_quote.py — 15 min delay, no token, no auth	Live — created May 20
Yahoo History	yahoo_hist.py — DMA50, DMA200, 6M+ historical	Live
Fyers	PERMANENTLY DELETED May 20, 2026	Gone forever
MCP	DROPPED — Railway FastAPI replaces it	Dropped
Claude Desktop	Not required for data feeds	Dropped from workflow
Google Drive MCP	Connected — Drive readable via browser	Live
Service Account	quant-reader@quant-project-496307	Live
gsread	Installed — reads Google Sheets	Ready
Railway FastAPI	Will replace all MCP tools — build Week 2	Pending
PostgreSQL on Railway	Central database — build G7	Pending

DATA SOURCE RULE — NON-NEGOTIABLE

Yahoo Finance = ALL price data (historical + near-live). No token. No auth. Free forever.

Fyers = DELETED permanently. Token system = REMOVED permanently.

Railway FastAPI = future data layer for all feeds, signals, GVM scores.

J Memory — Trading Journal | Updated May 20, 2026

J = Journal. Personal cash trades only. Rules, ledger, infrastructure, event flags.
